It is my pleasure to recommend Susan Gerlovina for a clinical placement. Ms. Gerlovina is a student in the graduate program in speech-language pathology at Long-Island University's Brooklyn Campus. She was a student in courses I taught in language acquisition and language disorders. Contributing to her earning "A"s in my courses, Ms. Gerlovina demonstrated intelligence, creativity, insightfulness, and collegiality. She has background in child language development and disorders, analysis of spontaneous language samples for content/form/use, standard assessment administration and interpretation, and evidence based clinical intervention techniques (both play based and operant). In addition, she is a Board Certified Assistant Behavior Analyst (BCaBA), and Registered Behavioral Technician (RBT). I believe she will benefit from her clinical placement, and in the process make a contribution.

Respectfully,

Nelson Moses, Ph.D.
Professor
